

FLOOR PLATE OPTIONS FOR CUSTOM SAUNAS

ADJUSTABLE INSTALLATION BASE:

This adjustable installation base is the perfect solution for protecting your sauna floor from intense heat and ensuring optimal performance.

Designed with adjustable leveling feet, this heat shield allows you to customize the height to perfectly fit your sauna's needs.

It effectively redirects heat away from the floor, preserving the integrity of the sauna structure and providing additional safety.

The durable, sleek stainless-steel construction guarantees long-lasting use and is easy to install with adjustable feet for stability.

Ideal for enhancing heat efficiency and prolonging the life of your sauna, this heat shield is a must-have for any sauna enthusiast looking for functional and reliable protection.

Dimensions: 23" (58.5 cm) x 30" (76.2 cm)
